9750: The true value of innovation

Innovation. Sustainability. Digitalization.

Printer Intelligence | Packaging Intelligence | Brand Intelligence

The innovation you need. The experience you trust.

In today's changing world, printing digital codes accurately and efficiently is just the beginning. Your technology must evolve to meet customers' changing demands—while still providing reliable efficiency, an optimized total cost of ownership (TCO) and sustainability.

Markem-Imaje delivers both flexibility and stability with its next-generation model, the 9750. Backed by MI's four-plus decades of building dependable inkjet printers, the breakthrough 9750 ushers in the next generation of continuous inkjet printers that apply powerful traceability coding on a large array of packaging.

Meticulously engineered and qualified by the most modern methods, the 9750's latest enhancements bring you:

- Technology leaps grounded in time-tested industrial processes for maximized uptime, reduced maintenance
- Cutting-edge design with simplified UI and modular components for easy operation, maintenance or repair
- Clear, customizable, traceable codes that meet customers' growing demand for supply chain visibility

Industry 4.0 ready

Supports several industrial interfaces* enhancing data driven management

Standard MI continuous inkjet accessories

Encoder, sensors, beacon towers, etc.

Remote service compatible

Including direct access to Miva (intelligent self-support solution), remote video support and connected device predictive analytics and alerts**

Large 10" capacitive touchscreen

Responsive, icon-based UI

Robust IP56 full stainless steel cabinet

No retention zones for efficient washdown; IP66 optional

Intelli'Swap modularity

100% front access for click-in, click-out maintenance or repair

Smart consumable management system

Automatic and error proof operations

Large printing capability linked to ink offering

Includes high-performance MEK-free inks

The 9750's Intelli'Design principle incorporates the best of past, present and future-proof improvements so you can adapt easily to changing marketplace needs. We engineer innovations based on your production lines and processes for long-term flexibility and value.

Full-featured Packaging Intelligence Suite™

Capacity for accurate, smart and optimized message design and data management across the factory

Extensive connectivity

Capacity for seamless production line integration

*Details available upon demand

The lasting advantages of innovation

As leading pioneers of continuous inkjet technologies, MI manufactures our printers according to our Intelli'Design principle to maintain the highest performance levels in demanding environments. Our engineers and design teams developed the 9750 to provide optimized TCO and overall equipment effectiveness (OEE)... while contributing to your sustainability objectives and offering the convenience you need to maintain focus on your core business.

Markem-Imaje reliability and service support

MI ensures peace of mind with our comprehensive service portfolio. Our global team of technical experts is here to help you increase production output, reduce downtime and optimize printer performance—from startup and training through upkeep and repairs.

We are committed to providing the best customer service and support possible, using the method that is most convenient for you.

Innovation

Advanced R&D backed by proven industrial processes and methods

- **Intelli'Inks** system ensures optimal coder performance and flexibility when coding different package materials
- **Intelli'Swap** technology streamlines mechanicals down to swappable modules
- **Jet Speed Control** automatically adjusts ink and printer variables to ensure drop placement, quality and code consistence... every time

Sustainability

More sustainable solutions = Long-term value and lower TCO

- **Intelli'Swap** modularity enables you swap out only the individual parts that need to be replaced and not the entire block
- **Intelli'Design** process and a portfolio of rigorously developed ink formulations help reduce consumable consumption and volatile organic compound (VOC) emissions by up to 50% while improving operator safety, well-being and TCO
- Consumable-saving mode additionally reduces consumption and waste

Digitalization

Convenience only a couple clicks away

- Remote services, including remote diagnostics, allow for a predictive analysis and therefore help maximize uptime, achieve OEE objectives
- Consumable and spare part supply through online portal
- Quick customizable 24-pin interface allows for easy integration in a 4.0 connected environment

Online and remote expert resources

Quickly recover from unexpected technical and mechanical issues with live helpdesk support including remote video capabilities.

Resolve technical issues yourself anytime with the help of our intelligent self-support solution, Miva.

On-demand consumables, repairs and spares

Plan ahead with consumable and maintenance agreements tailored to meet your business needs.

Order and track spare parts and consumables as you need them with our online portal.

Personalized, scalable rental program

Design a turnkey coding solution that perfectly fits your unique needs with Confidence 360 – our flexible rental program, giving you cost predictability.*

*Based on local availability

Applications and use cases

MI is committed to helping you achieve the best quality codes for your specific application. We provide customized sample print test support that considers your code, content, line speed and substrate to ensure your product is secured—from the moment it is coded until it reaches your final consumer.

Consumables

Designed to print on all types of substrates from standard to specific applications (food grade, sterilization, UV cure, egg coding, etc.): alcohol-based, water-based, ketone-free and MEK-free inks available; wide variety of colors

Substrates

Plastics, glass, metal, cardboard and directly onto food

Markets

Food, beverage, cosmetics, toiletries, electrical equipment, electronics, cables, tubes and profiles

The 9750: The true value of innovation

MI has earned our reputation as one of the most reliable inkjet printer suppliers by driving innovations grounded in stringent manufacturing standards. No matter where you are in your technological adoption, the 9750 continuous inkjet secures your investment by giving you flexibility, performance and security to meet your customers' needs now and in the future.

Contact us to try-out the **MI 9750** on your packaging line and see for yourself.

About Markem-Imaje

Markem-Imaje, a wholly owned subsidiary of Dover Corporation, connects products and protects brands through intelligent identification, traceability and consumer engagement solutions. We offer the industry's most comprehensive range of marking and coding systems seamlessly integrated with trusted software, services and consumables. Over 50,000 customers worldwide partner with us to help them unlock the power of information in codes.

With decades of proven expertise provided through the most extensive global network, we empower our customers to optimize supply chain efficiencies, achieve sustainability and compliance objectives, keep products safe and engage their consumers. This is intelligence, beyond the mark.
